The Fastest-Growing Lean Design and Construction Event in the Nation is Now Online

Our new virtual format combines convenience with big-time benefits, including:

**INCREASED ENGAGEMENT**
Studies show that 30 percent of people are more likely to speak to a person at a virtual booth than at an in-person event, and 47 percent are more likely to ask a question.

**EXPANDED REACH**
Get your solutions in front of new global audiences and meet potential customers who may not be able to travel to an in-person event.

**SIMPLE FOLLOW-UP**
Leads are cooked and tracked as soon as attendees click on your virtual booth, making it easier for you to connect with potential customers.

**INCREASED VISIBILITY**
Your content lives online longer, giving potential clients more time to discover your product or brand.

**MEASURABLE RESULTS**
Forget approximations. You’ll leave knowing exactly how many people interacted with your booth and your content, and receive a complete list of prospects after the event.
